The US Department of Agriculture's (USDA) National Agricultural Statistics Service's (NASS) – Ohio Field Office is pleased to present the 2019 - 2020 edition of *Ohio Agricultural Statistics Annual Bulletin*. This publication, which is also available on our web site, is a compilation of the many statistical reports published over the past year that highlight Ohio's diverse agriculture sector.

The statistics in this bulletin showcase this diversity and are used on a regular basis to make informed decisions by producers, consultants, advisors, government officials, and others. The compilation of this bulletin is a product of the partnership between the Ohio Department of Agriculture and NASS.

I would like to extend a special thanks to all those producers, agri-businesses, commodity groups, and countless others who have given their valuable time to provide the information that serve as a basis for these data. Their responses are through the Internet, mail, via telephone, and face-to-face interviews.

Special thanks also go to the National Association of State Department of Agriculture enumerators for their outstanding work in collecting and providing timely and accurate data. Without their dedication to Ohio agriculture, we would be unable to successfully provide these many data.

The Census of Agriculture is conducted by NASS every 5 years. The 2017 Census of Agriculture was released in April 2019. Results include information on farm numbers, acreage, crops, livestock, income, expenses, and demographics at the county, state, and national level. The wide-array of Census data are used by policy makers, universities, communities, and organizations throughout Ohio and the United States to plan for the future and compete for valuable resources. We thank Ohio's producers for their cooperation and providing the information which helps ensure the success of Ohio agriculture.

Good decisions can only be made with good information. Our agency continually strives to meet our mission of providing timely, accurate, and useful statistics in service to U.S. agriculture. Thanks again to all those who provided, collected, and analyzed the data in this publication. If you have any questions about these data or need any additional information, please visit our web site at www.nass.usda.gov and/or contact our office at (614) 728-2100. We look forward to serving you.

Sincerely,

August 1, 2020

I am proud to jointly issue the Ohio Agricultural Statistics 2019-2020 Annual Bulletin, a cooperative publication between the Ohio Department of Agriculture and the United States Department of Agriculture, National Agricultural Statistics Service, Ohio Field Office.

This publication goes a long way toward quantifying the value of Ohio's food and agriculture industry. The facts and information in this publication will help local, state, and federal leaders understand agriculture's reach, which in turn, leads to making appropriate decisions to help us carry out one of our important missions of educating the public about the diversity and scope of Ohio's number one industry.

I hope you find this information valuable. On behalf of the Ohio Department of Agriculture, thank you for all that you do to support Ohio agriculture.

Sincerely,

Dorothy Pelanda
Director
